In addition to the Livescore, Tables and Statistics service Football-Data continues to provide the football punter with computer-ready football results, match statistics and betting odds data for use with spreadsheet applications, to help with the development and analysis of football betting systems.

The table below provides quick links to all the data files, with descriptions of

exactly what data can be found in each data file.

All files are available in CSV/Excel format for PC Windows operating systems, and are at least updated twice weekly (Sunday nights and Wednesday nights).

Football-Data's preferred spreadsheet application is Microsoft Excel, offering a full range of analytical functions to test betting systems developed from

match and odds data
